NOTE TO: D/OCA

SUBJECT: DDA Staff Meeting

At the DDA staff meeting this morning two items of interest to OCA were discussed:

The Comptroller is going to send a memo to the DDCI and the DCI on the impact of Gramm-Rudman. It will outline what we plan to do and what we will not do to absorb the cuts.

The Director of Personnel reported that the HPSCI and SSCI staffs met on the retirement plan and seem to be in agreement on the Agency package. He added that at some time in the future it might be well to have the DCI go downtown to press for our case but for now his view is that the DCI "keep his head down." He did not mention our legislative strategy and the Personnel people that I talk to have not gotten any feedback from him on it. I will stay in touch with them on this and report to you when the D/Pers has spoken his mind to them on the strategy. The DDA suggested that he get a "card" to the DCI summarizing what we want to get in the retirement legislation. D/Pers will do this and it will be much like the Issues part of our strategy paper.
